## *Scope of Services for Pipeline Customers*

### *1: INSPECTIONS*

- A: Inspect overhead crane and hoist systems annually to meet OSHA regulations.*
- B: Inspect crane systems for damages due to fires and/or other disasters.*
- C: Load testing New and/or old systems*
- D: Pipeline customer also can have the truck crane systems, slings and other lifting devices inspected.*

*Mid-States has developed a plan that helps reduce inspection cost by grouping various pipeline customers into locations and the number of units each facility has. The total cost of inspections that are used under this plan includes all travel and on-site labor and per diem for technician(s).*

### *2: ON-SITE REPAIRS*

*We will provide technician(s), equipment and materials to repair crane and hoist systems as directed by customer. These repairs can be a quoted fixed price and/or time and materials.*

### *3: SHOP REPAIRS*

*Customers can send in hoist units to any of our shops to be repaired.*

### *4: PARTS*

*We have a parts department to handle requests by customers needing parts to repair crane and hoist systems.*

### *5: NEW EQUIPMENT*

*Mid-States offers a complete line of crane and hoist systems, depending upon customers needs. Pipeline customers pay 5% over cost on all new crane and hoist units regardless of manufacturer, however discounts vary from manufacturer to manufacture.*
